Portfolio

PROFESSIONAL SUMMARY

Full-stack developer skilled in C#, ASP.NET Core, Dapper, SQL Server, React, and Redux. Experienced in building secure RESTful APIs, role-based authentication, and responsive frontend interfaces. Familiar with MVC, microservices, Docker, CI/CD, and JSON-based communication, with a focus on clean code and efficient collaboration.

SKILLS

- Languages & Frontend: C#, JavaScript, HTML, CSS
- Frameworks & Libraries: .NET Framework, ASP.NET Core, ADO.NET, Entity Framework, Dapper
- Databases & ORM: SQL Server, Entity Framework, Dapper
- Architecture & Patterns: MVC, Microservices, RESTful APIs
- Tools: Git, GitHub, Swagger
- Other Skills: Unit Testing, Caching, Logging

EXPERIENCE

SOFTWARE INTERN (BOOTCAMP)

MARCH 2025 - PRESENT

BRIDGEON SOLUTIONS - KOCHI, KERALA, INDIA

- Engineered scalable RESTful APIs using C# and ASP.NET Core, applying MVC architecture for modular and maintainable backend systems.
- Implemented secure authentication and authorization using JWT, role-based access control (RBAC), and middleware to protect sensitive routes.
- Designed and optimized SQL Server databases, leveraging Dapper for high-performance data access and efficient querying.
- Developed responsive frontend interfaces using React, Redux, JavaScript, HTML, and CSS, ensuring seamless integration with backend services.
- Worked independently using Git and GitHub for version control, ensuring efficient code management and timely feature delivery.
- Applied clean code practices, robust error handling, unit testing, caching, and logging to enhance maintainability and debugging efficiency.
- Collaborated with the development team via Git and GitHub, ensuring smooth version control and timely delivery of features.
- Documented and tested APIs with Swagger, improving API usability and integration.

JR JAVA DEVELOPER

MARCH 2022 - MARCH 2023

IC4- INTEGRATED COMMAND CONTROL & COMMUNICATION CENTRE

- Involves in code review and training.
- Delivers highest quality software by creating unit test plan and testing code thoroughly.
- Implements solutions as designed in technical documentation specification and coding standards.
- Creates project documentations and coordinate technical issues.

PROJECTS

ONSTEPS_ API (C#, .NET, Dapper, SQL Server, JWT, Razorpay) - Present

GitHub - https://github.com/KHAIRUNNEESA-K/Shoe_Ecommerce_Backend.git

- Developed a secure backend system using C# and ASP.NET Core with MVC architecture, ensuring modular and maintainable code.
- Implemented data access using Dapper, enabling high-performance querying and efficient interaction with SQL Server.
- Integrated JWT-based authentication with role-based access control (RBAC) and middleware to safeguard protected routes.
- Implemented payment processing using Razorpay API, allowing secure and seamless transactions.
- Applied error handling, logging, and caching to improve system reliability and maintainability.
- Managed project versioning and collaboration using Git and GitHub.

ONSTEPS_FRONDEND (REACT JS , CSS) -Present

GitHub - https://github.com/KHAIRUNNEESA-K/Shoe_Ecommerce.git

- Developed a responsive and interactive user interface using React, ensuring smooth user experience across devices.
- Styled components and layouts with CSS, creating a clean and modern design.
- Consumed backend APIs via JSON, dynamically displaying data on the frontend.
- Implemented state management using Redux to efficiently handle application data.
- Integrated payment functionality frontend-wise, enabling users to interact with Razorpay securely.
- Applied form validation and error handling on the frontend to enhance usability and prevent invalid inputs.

EDUCATION & CERTIFICATION

Graduation – Bsc Chemistry

Majlis Arts & Science College Malappuram

Advance Java Course

Rogersoft Technologies Kochi
