## PROFILE:

Detail-oriented and hard-working Architect worked at designing commercial/residential projects providing presentation drawings and working drawings. Presently I am working with Conservation Architect and also worked on various hospitality and adaptive reuse projects. This offers strong attention to accuracy, extensive knowledge of multiple architecture software programs and great team work abilities.

## 11. Education and community engagement

JUGAADOPOLIS- Necessity is the mother of invention they say, Indian cities are symptomatic of how innovation can lead to create solutions with limited resources. Jugaadopolis (an initiative of Aishwarya Tipnis Architects) is a student led movement to make sense of the old city.

## PERSONAL PROJECT

### Residential Project

Designed and supervised the construction of the residence of Mr. Rajeev Singhal.  
Prepared design proposal, 3D Visualisation, working drawing for the execution of the project.

## EDUCATION

### Bachelor of Architecture

Sunderdeep College of Architecture

Aggregate- 77%

**AKTU, Lucknow**

2014-2019

### Research Work includes:

- **Revitalisation of Sanskar Kendra Ahemdabad , Undergraduate Thesis.** An attempt to conserve a building and to keep the space alive. The ground upon which the project rests, lie in the revitalisation of existing cultural complex and re- interpretation of the long lost but still soulfully fundamental design principles of Le- Corbusier- his design ideals and the way in which he used to impart the various deep impacts of his designs into his spaces.  
The project emphasises reliving the same old legacy but in accordance to the existing urban, functional, socio economic context, current scenario of the city and the surroundings of the building.

- **“Effect of Revitalisation of Historic Districts on Urban Life, Undergraduate Dissertation** This study aims to identify the social impact of revitalizing historic buildings in urban renewal on community life. This also aims to promote interdisciplinary approach to urban revitalization that takes into account the principles of sustainable development, social equity and justice. Raise awareness among key decision makers, particularly at state and local level, on the role they can play in the balanced development of historic districts in order to prevent social exclusion.
